

YOUTH CAMPS OPENED AT SPRINGVILLE

By Winnie Gage

Mr. and Mrs. Earl Kenyon's ranch above Springville was a beehive of activity Saturday and Sunday with the arrival of 80 active boys from many places to spend the summer.

This is the 12th year of operation for the boys' camp. Head counselor this year is James Kemp, counselor at Alhambra high school, and assistant director is John Seixas, coach at Mark Keppel high school. Program at the camp includes fishing, hiking, horseback riding and handicraft work.

At the R. R. Killian ranch, Springville, 26 girls arrived Saturday and Sunday for summer camp. Program at the Killian ranch includes swimming, hiking, riding and handicraft work. Head counselors this year are Peggy Gilbert, Los Angeles; Millicent Edwards, Denver, and Dora Ann Swett, Springville.

OTHER SPRINGVILLE NEWS
Mrs. June Lewis and Betty and Barbara Rendall of Bell Gardens are visiting Mr. and Mrs. Art Johnson.

Mr. and Mrs. Ila Weide of Los Angeles visited her parents, Mr. and Mrs. Roy Underwood.

Rev. and Mrs. A. E. Hall, new pastor of the Community Methodist church, arrived here Friday.

Mr. and Mrs. Babe Nelson of Tulare, with their grandchildren, Richard and Sammy Satterthwaite, spent the weekend in the Dr. E. R. Zumwalt cabin at Cedar Slope.

Mr. and Mrs. Charles L. Harris of Reseda honored the tenth birthday of their son, Allen, by bringing three of his playmates to their cabin in Cedar Slope for a weekend.

TERRA BELLA CORN FINISHED; OTHER PRODUCE MOVING

Run on Golden Bantam corn at J.P. Molica Company Packing shed at Terra Bella was completed Tuesday, with production from over 100 acres handled in 10 days.

Tony Cannella, of the Molica company, states that market was fair; quality excellent, but because of a relatively cool and damp spring, yield was light.

At present, tomatoes, principally from the Cemo ranch, are being handled; melons from the Delano district are being shipped and some strawberries, which started in April, are still moving. Squash was finished prior to the start of the corn season, after a run of two and one-half months.

BILLINGSLEY NAMED

Kenneth Billingsley was re-elected president of the Woodville Pioneer and Community picnic at the annual picnic held last Sunday at Mooney Grove. Victor Emken is vice president; Mrs. Elizabeth Billingsley, secretary.

DEMONSTRATION TEAMS from southeastern Tulare county made a clean sweep at a Tulare County 4-H Demonstration team contest held last Friday at Mooney Grove, with winners, left to right, above, being: Marilyn Wilson and Karen

Mays, Success Valley 4-H with a demonstration on "Making A Purse," Frances Wilson, Burton 4-H, "Home Pasteurization of Milk," and U. A. and J. J. Hatfield, Springville 4-H club, "Bloat Control and Management." Tro-

phies for their clubs, a medal for each team member and expenses to compete in a state-wide contest at the California State fair went to the winners.

(Farm Tribune photos)

Southern County Demonstration Team Winners

First Tulare County 4-H Demonstration team contest, held last Friday at Mooney Grove, was "all southeastern Tulare county," with teams from Burton, Success Valley and Springville 4-H clubs taking top honors.

Frances Wilson, Burton 4-H club, won the dairy foods contest with a demonstration on "Home Pasteurization of Milk;" Marilyn Wilson and Karen Mays, Success Valley 4-H club, won the home economics division with a demonstration, "Making a Purse" and U. A. and J. J. Hatfield, Springville 4-H won the agricultural division with "Bloat Control Management."

By virtue of winning at Mooney Grove, these 4-H members earned an expense-paid trip to the California State fair in September, where they will compete in a state-wide demonstration contest. They also received trophies for their clubs and individual medals.

Trophies, medals and the trip to the state fair are being provided by Leggett's Men's and Boys' store of Porterville; Linders Tractor and Impremint company of Tulare and Knudsen Creamery of Visalia. Presentation of the awards were made by Farm Advisor Don Kruse, for Leggett's; Jack Patterson for Knudsen and George Horan, for Linders.

Other southeastern Tulare county competitors included: Gene Pixley and Will Hatfield, Springville 4-H, "Cattle Grub Control;" Karl Longley and Joe Faure, Vandalia 4-H, "Dehorning Cattle;" Virginia Andreas, Earlimart 4-H, "Cottage Cheese;" Myrna Lain and Erma Jean Hunter, Strathmore 4-H, "Fun With Flowers;" Delbert Lopez and Butch Andreas, Earlimart 4-H, "Making a Cake;" Marilyn Wilson and Karen Mays, Suc-

(Continued on Page 2)

FARMERSVILLE SUBJECT OF SOCIETY MEETING

History of Farmersville will be the subject of a Tulare County Historical Society meeting set for Tuesday evening, July 10, 8 o'clock in the Farmersville school auditorium.

Especially invited to the meeting are members of pioneer families that settled in the vicinity of Farmersville, in addition to all other persons interested in county history. Persons having them are asked to bring items of historical interest such as old newspapers or pictures.

Land around what is now Farmersville was farmed early in the history of Tulare county; the town was formed in 1866 when the Crowleys opened a store there. This store was taken over by the Brundage family and continued in operation for more than 70 years.

CANTERBELLES

Porterville's Fair Canterbelles will practice next Monday evening, 7:30 o'clock, at the Rocky Hill arena on East Putnam avenue, Porterville. Girls desiring to join the group of precision riders, or those desiring to join a junior group, age eight and nine years, should report to Director Barbara Richardson at the arena, Monday, with their horses. Age limit for the regular Canterbelle group is 10 to 18 years.

DEER HUNTING HEARING

A public hearing on a proposed antlerless deer season in the Devil's Garden area of Modoc county has been postponed to Tuesday, July 17 at Alturas on request of the Associated Sportsmen of California. The hearing was originally slated for June 20.

Young Farmers Need Produce For County Fair Booth

Porterville chapter of the California Young Farmers is this week issuing a call to all farmers and ranchers of the Porterville high school district to provide all types of farm produce for use in the Porterville booth at the Tulare County fair in September.

Persons who have any kind of farm products — field crops, deciduous fruits and nuts, vegetables, berries, grains, olives, citrus fruits, apples, dates — any farm product suitable for display in a fair booth, are asked to contact Guido Lombardi, president of the Young Farmers, telephone 90-J-12 or Ernie Holmes, telephone 516-J, Porterville.

Commercial quality items, not unusual specimens, are desired. Provision has been made to store perishable products until fair time.

For two consecutive years, the Young Farmers have given Porterville a first-place booth at the fair and, according to Mr. Lombardi, they are planning on making it three in a row. Special work and a wide variety of products will be needed, since other communities of the county will be "gunning" for Porterville this year.

WISHON POSTOFFICE

Postoffice at Camp Wishon resort — officially to be known as "Jordan, California," will open on July 1, with Louis Styber as postmaster. The office will operate through the summer for benefit of campers and cabin owners in the Wishon and Doyle Springs area.

CONTROLLED BURNS

Controlled brush burns are planned this summer on 60,000 acres of land in the San Joaquin valley.

STATE TOUR MEMBERS SEE COMBINATION OF DAIRY AND BEEF AT BORROR RANCH

A dairy program through which one of the top Holstein herds in the country has been developed, plus a program of beef production in conjunction with dairy production, was explained by Mark and Bruce Borror when members of a California Dairy Cattle tour visited the Sequoia ranch at Springville last Sunday.

Mark Borror explained that on the 1,420-acre ranch, which includes 175 acres of irrigated pasture, beef cattle — purebred Angus — are run on range land for several months of the year, as natural feed allows, then are turned on irrigated pasture to

TAX PROBLEM FACES STATE

Although the state of California was able to balance its 1951-52 budget at \$1,034,000,000 without increasing taxes, the problem of taxation is still of major importance to citizens of the state, according to Senator J. Howard Williams, who returned to his Porterville home this week following the closing of the state legislature last Saturday.

Senator Williams points out that some three and one-half billion dollars goes annually from California in federal taxes; state budget is approximately a billion dollars and the local governments in the state run about a billion dollars, making \$5 1/2 billion in taxes that Californians now pay.

With a state income of \$18 billion, the state tax bill is now above 28 per cent, and if federal plans for a \$40 billion defense program go through, it is likely that Californians will pay an additional \$2-\$3 billion dollars in taxes, which means, in the opinion of Senator Williams, that taxes are dangerously high.

"We were able to provide for all existing services of the state, including provisions for expansion, with a balanced budget this year," Senator Williams says, "however, because of increasing construction costs, it was necessary to defer all state construction with the exception of certain priority jobs, such as state mental institutions, prisons, some schools and small jobs needed on existing state property."

In commenting on building costs, Senator Williams, who served on the capital outlay subcommittee of the senate finance committee, states that in 1949, building index was 350; in 1950 the index figure had risen to 500 and is now 675, indicating the great increase in building cost in the past two years.

The current budget of slightly over a billion dollars, is actually about the same as the 1940 budget, says Senator Williams when one considers that in the 10-year period, 1940-50, state population

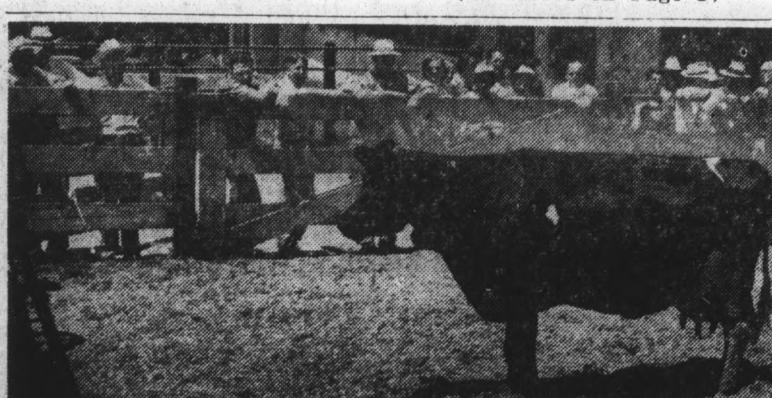

(Continued on Page 8)

WHAT NOW?

For the second time in a year, Porterville voters Tuesday turned down a bond issue for construction of a new sewage disposal plant. Vote on the \$450,000 bond issue was 553 for, 448 against; a two-thirds majority is necessary to carry this type of election. City officials are now debating future action in taking care of a sewage disposal problem that needs taking care of.

Vote On Water

Voters in the Delano-Earlimart Irrigation district will vote, July 10, at the Columbine school, on whether or not to accept a permanent contract for water from the Bureau of Reclamation on a proposed distribution system that will cost \$9,500,000.

MEMBERS OF the California Dairy Cattle tour that visited the Sequoia ranch of Mark and Bruce Borror, Springville, as well as other Tulare county dairy ranches, last Sunday. Members of the tour

are shown looking at some of the fine Holsteins on the Borror ranch, the cow in the foreground being Weber Burke Dusty Joe. Sponsored by the Western Dairy Journal, the tour covered the state of Cali-

fornia during the past week. Prior to leaving the Borror ranch, members of the tour enjoyed lunch on the lawn of the Mark Borror home. (Farm Tribune photo.)

CHICKEN ROMANCE

For a little summer romance let's use this hen and rooster design for a set of dish towels. Watch the love story unfold with Cupid played by a shy young daisy. These motifs may be either appliqued, embroidered or painted. The pattern also includes motifs for a matching set of potholders. Complete instructions and color suggestions are given on this transfer pattern C3147. Enclose 21c, mail to THE FARM TRIBUNE, 522 N. Main St., Porterville. Allow about 15 days for delivery.

MR. AND MRS. MYRON WILCOX of Porterville serve their wedding cake, following their recent wedding in the First Presbyterian church, Exeter, in which the Rev. George Crichton of Terra Bella and the Rev. August Harris, Exeter, performed the double ring ceremony. Mrs. Wilcox is the former Miriam Avery of Exeter.

WE THE PEOPLE

(From the Brighton, Mich. Argus)

A timely letter from a business man to his creditors:

Dear Friends:

In reply to your request to send a check, I wish to inform you that the present condition of my bank account makes it almost impossible. My shattered financial condition is due to Federal laws, State laws, County laws, City laws, Corporation laws, Liquor laws, Mother-In-Laws, Sister-In-Laws and Outlaws.

Through these laws I am compelled to pay a business tax, head tax, school tax, gas tax, light tax. Even my brains are taxed. I am required to get a business license, car license, truck license, liquor license, not to mention a marriage license and dog license.

I am also required to contribute to every society and organization which the genius of man is capable of bringing to life; to women's relief, unemployed relief; also to every hospital and charitable institution in the city, including the Red Cross, the Black Cross, the Purple Cross and the double cross.

For my own safety I am required to carry life insurance, property insurance, liability insurance, business insurance, earthquake insurance, tornado insurance, unemployment insurance, old age insurance and fire insurance.

My business is so governed that it is no easy matter for me to find out who owns it. I am in-

MILITARY BUDGET

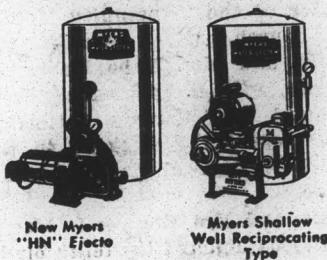

Department of Defense, according to Congressman Tom Werdel, has submitted a military public works construction bill to congress authorizing \$6 1/2 billion worth of building for armed forces, of which over \$500,000,000 would be spent in California if the bill is approved.

HARRY S. SMITH, will retire from services with the Citrus Experiment station at Riverside after more than 37 years of work in which he specialized on control of citrus pests, and other types of pests, through introduction of other harmless insects.

TULARE

SCOTT'S COLUMN

Soon bangs it the 4th of July; wonder what the founding fathers would think of our nation today. Materialistically, we're a rich and mighty outfit, powerful . . . and pretty stupid! Not that we can hold our stupidity against ourselves . . . after all, we're people, and that's people for you! And how we love to admire ourselves! If your snapshots of yourself aren't turning out as admirably as you'd like . . . take your camera to EDWARD'S PHOTOGRAPHY STUDIO, or have it sent there when you send in your film. Have the Edwards check your camera, don't waste film.

Ferd and Liza received some questions that I refused to let them print. Pretty bad, you gotta admit, if I refuse to let 'em into print! Gist of some of them was that certain people (letters named an organization) are actually, actively fighting to keep industry out of Porterville. There's the dirt, without libel. I prefer dirt removal without damage . . . like getting your hair done at FLORENCE PEAK'S BEAUTY SALON. At Florence's you get expert service with special attention paid to your particular scalp and hair condition. For the most personalized beauty services, call 107-W for an appointment. Free parking in the shade at 2nd and Harrison

Having retired at the age of 29, I'm free to do as I please . . . anything but work. When anything I'm doing becomes a job I'll quit. meanwhile, I try my hand at anything that comes along . . . just for fun. Now I'm trying my hand at being on the other side of the counter for a spell . . . just to see how it feels, to learn more about the merchant's point of view, problem's woes and delights. I'm not quitting the Tribune (never have "worked for" them) not taking a new job . . . just studying a new subject. PROCTOR'S CLEANERS and I agree that one can never be so good he can not improve. Proctors does the best in clothes cleaning, but they weren't satisfied; they hunted up something extra to improve the job. Reextening is the answer, a process they give all fabrics . . . free . . . that renews the youth of the fibers. Send your clothes to Proctors.

More about the obstructionists in our midst . . . alleged ones that is . . . Seems some men have gone so far as getting out letters to industry discouraging it from coming here; they are also said to contact representatives when they come here to case the joint and try to talk them away. This is just plain gossip, the letter writers didn't sign their names . . . I just happen to be a good detective and know who did the writin' to Ferd and Liza. Others want to help the community and citizens have more and better living. SEARS ORDER OFFICE is offering a 13 foot freezer at their anniversary special for \$229.50 . . . with monthly payments. To shop easily, to get good buys, drop in at Sears, Main and Oak for their sale catalogue.

Watched a car back away from the curb on the west side of Main, back across the street, and proceed north on Main! Neat trick if you live through it and don't kill others . . . one time in my life I wished I had a gun like this picture. CULLIGAN SOFT WATER saves the plumbing, protects its life, and saves you money. Call Lindsay 2-4050.

Now that we're out of the sewer for a spell, now that we can relax for a while before the next battle starts, a little summer-time recreation is in order. Time to read something for fun instead of for high blood pressure raising. BREY'S BOOK SHELF, 600 N. "D," has the newest best sellers in the rental library. High Calling by James Street, This Is The Hour by Feuchtwanger, A Woman Called Fancy by Verby, Scandalous Mrs. Blackford by Kane and Leclerc, Festival by Priestley, Season Of Strangers by Becker, the Harper prize winner . . . and dozens and dozens more to make you laugh, enjoy yourself. Like mysteries? They have oodles. It's easy to shop and order books from Marie and get others from the rental shelves.

I nominate the citizens of the sewer investigating committee to Porterville's Hall of Fame, Honor Roll . . . what have we? Honest citizens who were agin the sewer deal before, who, after investigation, publicly changed their vote. That's the type of honest, fair, clear-headed action we need. That is the kind of men we had founding our nation, that's what we need more of. Ever since pioneer days, home owners have been the backbone of our nation, they've always believed in the principles of '76. THE BREY-WRIGHT LUMBER CO. is honored to help you build your home. Invest in America, in a home of your own; stop in and talk over plans with Kyle Lawrence this week. Brey-Wright has been giving dependable service since 1890.

And it's Polio season again. Best we keep in mind all the precautions we know of against the plague. Still no cure, still not positive about the cause, for that matter. Try not to get over-tired is the best warning. Take out Polio insurance is the best sense. LUMLEY-REED INSURANCE AGENCY has a policy that goes into force the minute you sign up and pay the \$10.00 premium that protects your whole family. Most of us just aren't rich enuf to stand the expenses of polio . . . this policy pays them for you. Remember, it's always good sense to have one agency write all your insurance. That way you know you have full coverage without wasting your money. For all insurance see Lumley-Reed, 211 E. Mill, phone 524.

To lots of people the 4th of July means firecrackers and rockets . . . to me it's watermelon and home-cranned ice cream! Ice cold watermelons is my first love, though, and I get heavenly ones at THE PORTERVILLE PRODUCE, Orange at "C" . . . they guarantee 'em and charge nothing for ice-coldng them. This week's specials: Fresh local Corn 50c a dozen, vine ripe local Tomatoes 69c a lug, also by the pound and by the basket. Okra 25c a pound; fresh local Green Beans, Eggplant and Bell Peppers. Dozens of other specials for the weekend and holiday, get 'em fresh for less at the last stop on the way to the hills.

Water In River

Ranchers in the Delano-Earlimart Irrigation district are now receiving Central Valley Project water from the Friant-Kern canal through the White River channel. It is expected that the district will receive some 15,300 acre-feet during the summer, with flow to continue for about two months.

How Much Production

A joint Land Grant College association, U.S. department of agriculture, is now working to determine how much American farms can produce by 1955 without reducing the basic productive resources of the soil. Dr. Paul F. Sharp, director of the University of California Agricultural Experiment station, is organizing the survey in the 11 western states.

Picture Contest Being Planned

B. E. Jamison, Tony Ramos and Lloyd D. Brown were appointed to set up rules for competition in a close-ups picture contest at a meeting of the Porterville Photography club held June 18 at the Jamison home. The contest will open at the next meeting of the club, July 2, at the home of Dale Weaver. At the last meeting, pictures of a recent field trip to Cedar Grove were shown and discussed; business was transacted and refreshments were served to conclude the evening. Thirty-four persons attended the meeting; anyone interested in photography is invited to attend any club meeting.

Folk Dancing

Folk dancers from throughout the San Joaquin valley will gather at Roeding park in Fresno on Sunday, July 1, for the San Joaquin Dance council's first regular meeting.

The meeting is slated for 4 p.m., with the business session to be followed by a picnic supper. At 8 o'clock, a colorful program of folk and square dancing will begin in the park pavilion.

Increased volume of Honeydew melons is moving from the Blythe area.

4-H Club Girls Eligible For Scholarships Through Freezing And Canning Projects

Girls who are doing 4-H Club work this year in canning and freezing are eligible to compete for state and county awards, and even college scholarships if they are state winners.

County canning winners will receive gold-filled medals of honor, while the state winner will go to the National 4-H Club congress

Household Insect Control Subject Of New Circular

"Control of Household Insects and Related Pests," a new circular published by the University of California college of agriculture, discusses the pests commonly found in California homes and their controls.

This pamphlet, written by A. E. Michelbacher, associate professor of entomology, and Deane P. Furman, assistant professor of parasitology, may be obtained through offices of farm advisors.

Written primarily for the housewife to aid in recognizing and eliminating insects, mites, spiders, and ticks frequently found around the household.

Control measures recommended include the latest materials available for home use, along with methods of application, and precautions when using these new insecticides.

FOR THE LADIES

RINGING BELLS WILL PROCLAIM INDEPENDENCE DAY

The Rev. Willis L. Goldsmith, pastor of the Congregational church in Porterville, has planned to cooperate in a nation-wide "Freedom under God" observance of the 4th of July, as proposed by 50 famous Americans.

According to Dr. Goldsmith, the 175th anniversary of the Declaration of Independence will be widely observed by the ringing of church bells at noon on July 4th, and by clergymen of many denominations preaching sermons on "Freedom under God" on the previous Sunday, July 1. The sermon in the local Congregational church will be given at 10 o'clock, the hour appointed for summer-time worship.

Sponsor for this celebration is a

newly formed "Committee to Proclaim Liberty," which includes top-ranking figures in many fields. The purpose, Dr. Goldsmith stated, "is to give spiritual emphasis to the freedom Americans have and are determined to keep."

Memorial Fund For Elmer H. Hughes

In recognition of his contributions as a teacher, scientist and livestock man, a memorial is now being established for the late Elmer H. Hughes, University of California professor of animal husbandry

Type of memorial has not been determined; under consideration are undergraduate scholarships, endowment of a graduate, establishing of a student loan fund, or construction of an Elmer H. Hughes room in the proposed new Davis student union.

Tulare county representative on the 12-man Hughes memorial committee is H. C. Jackson of Visalia. Contributions may be sent to Elmer Hughes Memorial Fund committee, care of Ira F. Smith, Davis, California.

Fresh Vegetables Are Good Buys Now

Locally grown fresh vegetables, are now available in abundance and are the featured foods of the U. S. department of agriculture's Plentiful Foods list for the week of June 24-30.

Here are a few pointers in selecting some of the vegetables plentiful in most markets at the present time:

Snap beans — Those with small seeds inside the pods are best. Avoid beans with dry looking pods.

Cabbage and head lettuce — Choose heads heavy for size. Avoid cabbage with worm holes, discoloration or soft spots.

Dry onions — Size and color do not affect flavor or quality. Avoid onions with wet necks. The Bermuda and Spanish types are milder than the very hard, long-keeping varieties.

Peas and lima beans — Select pods that are well-fitted, but not bulging. Avoid dried, spotted, yellowed or flabby pods.

POSTOFFICE HOURS CHANGED IN PORTERVILLE

Effective Monday, July 2, 1951, all service windows at the local post office will remain open from 9:00 a.m. to 5:00 p.m. Mondays through Fridays and from 9:00 a.m. to 12 noon on Saturdays. Postmaster Chester P. Dunning announced this week.

This change has been ordered after a careful survey and investigation covering a period of several months and is being instituted to improve and expedite service as well as to effect desired economies.

The survey has shown such a relatively small number of window transactions before 9:00 a.m. and after 5:00 p.m. that little or no actual inconvenience will be experienced by the patrons of the office. At the same time service in general will be improved by better use of the man-power hours now required at the service windows.

Carrots In Orange And Wine Sauce Is Gourmet's Dish

Here is a recipe in which three products of the farm — the farms of southeastern Tulare county — can be combined in an unusual way to provide a real gourmet's touch to the menu.

CARROTS IN ORANGE-WINE SAUCE

(Serves 4 or 5)

1 1/2 pounds carrots
2 teaspoons cornstarch
1 tablespoon sugar
Dash of salt
1/2 cup California Muscatel or
White Port Wine
1/3 cup orange juice
1 teaspoon grated orange rind
2 tablespoons butter or
margarine

Wash and scrape carrots. If small leave whole; if large, cut crosswise in halves and then lengthwise in strips. Cook, covered, in boiling salted water for about 20 minutes, or just until tender. Drain. Mix cornstarch, sugar and salt; gradually add wine and orange juice, stirring until smooth; add orange rind and butter. Stir over medium heat until mixture boils and thickens. Add carrots; cover and simmer for about 5 minutes before serving.

County Dairies Being Scored Today

Dairies of Tulare county are being scored today in the Roadside Improvement program, with a "Dairy of Merit" plaque to go to those dairies that qualify.

The program is being encouraged by the California Dairy Industry association. Dairymen may participate by enrolling their creamery field man, dairy inspector or the county farm advisor's office.

Meat and meat products in storage as of May 31 were substantially larger than on the same date last year and larger than the five year average.

The Farm Tribune

Published Weekly at Porterville, California

Porterville, California

522 North Main Street

John H. Keck, William R. Rodgers - Co-Publishers

The Farm Tribune was declared a Newspaper Of General Circulation on January 10, 1949, by judgement of the Superior Court of the State of California, in and for the County of Tulare.

INDEPENDENCE DAY

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain unalienable rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among men, deriving their just powers from the consent of the governed. . . ."

Pointers Given On Summer Storage Of Wool Garments

By Clara E. Cowgill, Home Advisor

Sun, air, brushing, laundering, dry cleaning and pressing are all enemies of the clothes moth. Before putting your woolens away for the summer, hang them in the sunshine and brush thoroughly, not forgetting seams and pockets. If soiled, launder them, or have them dry cleaned if they are not washable.

But even with this care, moths may get into the woolens if they are not properly stored. They should be wrapped and sealed immediately after cleaning. Put the clean wool articles in tightly sealed paper bags or boxes, chests, trunks or glass jars or tin boxes.

Take further precautions and use paradichlorobenzene or naphthalene flakes or moth balls when storing woolens, or instead of these chemicals, an insect spray or even DDT can be applied generously with no odors or damage to the articles.

Tests show that a pound of flakes or moth balls are required for each 100 cubic feet of storage space. About a half pound of flakes or balls should be used for a chest or trunk with a tight lid. Since the fumes go downwards, put flakes in a cloth sack, and place it on the upper shelf or top of chest or hang it high in the closet. Keep the storage space closed as much as possible.

Sudan summer pasture will nearly always grow faster if nitrogen fertilizer is applied.

4-H Summer Camp

Approximately 400 4-H members in Tulare county plan to attend the three sessions of the 4-H camp at Whitaker forest this summer, with the first two-week session to open Sunday, July 1. A senior camp will be held at Bruin camp the third week in July.

FINS UR FEATHERS

By Phil The Forester

Independence Day next week will provide additional time for fishing with practically all of the back country now open and waiting for the trout angler. A trip to the sea shore will award the abalone and clam diggers with minus tides and deep sea fishing is reported very good.

At the lower elevation levels, only the fish planting trucks with their loads of catchable size rainbow provide good fishing. Even the black bass, crappie, bluegill and catfishing has slacked off.

From the Stanislaus National Forest we gather the following: Calaveras county — Blue Creek very popular and producing many good catches mostly with bait. Hunter reservoir heavily fished with only fair success and expected to remain spotty and poor for the rest of the season. Stanis-

laus river (northfork) has perfect water conditions with limits being taken on bait and some good catches on flies. (Middlefork) is roily, spotty and only a few fair catches. Clavey river slightly above normal, mostly clear and fishing very good near mouth of Cottonwood and Trout creeks. Fair to good near Lumsden bridge. Main Tuolumne slightly clouded with silt but fishing reported very good with bait near Lumsden bridge and mouth of Jawbone creek. A number of limits of the larger fish taken. Mariposa county — northfork of the Merced river is normal and clear and fishing good with flies. Main Merced high and roily and fishing poor.

Strawberry lake within the forest is reported very good especially with spinners. Lake Alpine, very good and these lakes are listed as very good to excellent and producing many limits of big fish: Flora, Buck, Chain, Clear, Waterhouse, Maxwell and Emigrant lakes.

July will usher in the first of the hunting season when coast side deer will be legal for the archers starting July 25. The Sierra buck season will open Sep-

tember 3 to the bow and arrow clan. These dates will surprise most of the Robin Hooders because they do not agree with the fish and game code dates. However, regulations fixed by the fish and game commission take precedent and the dates remain the same as fixed by the commission for last year.

Charles E. Taylor of Lemoore wants to know if a party can leave their automobile at the Fishing Village and take a boat and camping equipment to the Madera side of Millerton lake and stay a few days. He also wants to know if each one may bring back a limit of fish for each day camped out. This calls for a yes and no, "yes" to leave the car, take a boat and camp at Temperance flats and "no" to more than one limit of fish, i. e., five bass and 25 bluegill plus a limit of frogs too, if the fisherman can find them.

Game conservation aid and assistant game manager jobs with the fish and game commission are now open with further information available at the State Department of Employment.

Farm Tribune Ads Pay

Now Is The Time To Kill Crabgrass

If crabgrass is taking over your lawn, here are some words of wisdom from Karl W. Opitz, county farm advisor.

Crabgrass can be effectively controlled by either potassium cyanate or phenyl mercuric acetate, sold under such trade names as Scut and Tat C-Lect. Directions of the manufacturers should be followed closely, Mr. Opitz warns, or desirable grasses may also be killed.

Frozen Food Meeting At Sequoia Field

Demonstration on freezing fruits and vegetables will be given tomorrow, June 29, at 1:30 P.M., at Sequoia field, for benefit of 4-H leaders and club members with the demonstration to be in charge of Betty B. Warmuth, 4-H Home advisor.

Miss Warmuth calls to attention that 4-H members can complete a food preservation and freezing project during summer months and that food preservation projects can be exhibited at the Tulare county fair in September.

BOB'S RADIO-TELEVISION OFFERS PERSONAL SERVICE; NATIONALLY-KNOWN PRODUCT

A PERSONALIZED service on radios, television sets and small home appliances, plus sales of nationally-advertised brand items is offered by Bob Yount at Bob's Radio-Television at 301 S. Main in Porterville.

BOB HIMSELF does the service and repair work, which assures a good job, since he has a background of 28 years in the business — including several years with a national chain organization in which he rose to supervisor, auditor and school organizer, and in 1942, was rated one of five top servicemen in the more than 600-store organization.

IN FACT, it was while traveling for this large chain organization that he first came to Porterville, and, liking the town, eventually decided to return and go into business for himself.

ALWAYS KEEPING up with new developments, Mr. Yount sold the first television set in Porterville, and is the oldest television dealer in town, from the standpoint of sales and service.

HE HAS attended factory schools on television, has the latest equipment in his shop for testing and repair work and has a portable television aerial with which he can tell whether television is going to be satisfactory in your home prior to going ahead with expensive installation.

THE NATIONALLY known Packard-Bell and Hoffman radios and television sets are handled and installed by BOB'S RADIO-TELEVISION, in addition to car radios, and the store carries a full line of small home appliances, with such brand names as Sunbeam, Toastmaster and General Electric. A good stock of radio batteries, plus other parts, is always available.

WITH MRS. YOUNT — Dorothy or Mrs. Bob, as she is often called, assisting in the store — the Younts have been in business in Porterville for about seven years. At their present location on South Main street, free parking is always available and most of the time, a large tree at the side of the store affords shaded parking.

ALL OF which means that for expert radio and television sales, installation and repair, it will prove convenient and profitable for you to check first with Bob's Radio-Television. And the address again — 301 South Main in Porterville; the telephone — 806.

TEPP DUST KILLS APHIDS AND RED SPIDER

Dusts containing TEPP are
bringing good results in control
of red spider and aphid on water-
melons, and other crops, according
to Farm Advisor Vincent H.
Schweers.

Mr. Schweers states that since
eggs of the spider are not de-
stroyed by the dust, a residual
action is necessary and dusting
should be repeated after a four-
day interval.

TEPP must be used fresh; it
cannot be stored even in dry places
for more than a few weeks, a sup-
ply to do only the job at hand
should be purchased by farmers.

COTTONSEED PRICE SUPPORT \$65.50 PER TON

Price-support loans on 1951-
crop cottonseed will be available
at \$65.50 per ton for basic grade
(100), according to E. H. Spoor,
chairman of the California Pro-
duction and Marketing Adminis-
tration committee. In areas where
a purchase program may be nec-
essary, purchases will be made at
\$61.50 a ton.

Prices on the 1951 crop of cot-
tonseed will be supported by means
of loans, purchase agreements,
and purchases of cotton seed and
of cottonseed products. The sup-
ports reflect 90 percent of the
January 15, 1951 parity price of
\$71 a ton for average quality seed
and are in line with the 90-per-
cent-of-parity support announced
for 1951-crop soybeans.

Other provisions of the cot-
tonseed support program will be
developed and announced later,
Mr. Spoor said.

Attend Camp

Attending the first session of
the Tulare County YMCA summer
camping season at Camp Tule-
quioa are Melvin Daybell, Bob
Donaldson and Donald Johnson of
Porterville and Jan Collins and
Carl Davis of Lindsay.

SHIPMENTS CURTAILED

In an effort to stabilize the
market, the Orange Administra-
tive committee sharply curtailed
shipments of California-Arizona
oranges for the week ending June
30, setting the prorate at 900
cars, a reduction of 250 cars from
the previous week's prorate.

Irrigated pastures should be
mowed if they are getting ahead
of the livestock. Mowing controls
the growth of weedy plants, re-
duces coarse growth, promotes
even chopping and full utilization
of food. Pasture hay may be
placed in windrows along levees.

DAIRY TOUR

(Continued from page 1)

Holsteins leave. This system, he pointed out, results in closer grazing than is sometimes practiced, making a longer period of recovery necessary after all stock is taken off a pasture block.

At present, the Borros have over 400 head of cattle on the ranch; they are milking about 90 head of Holsteins, with the dairy herd averaging some 500 pounds of butterfat, and with individuals from the Borro herd consistently at the top or near the top in the Dairy Herd Improvements association.

Members of the cattle tour were shown many of the Borro Holsteins, with blood lines and breeding program explained and with results of family crosses shown, in some cases through several generations.

Some of the bulls and cows that are nationally known and represent top blood lines in the Holstein breed were exhibited.

Before leaving for Kern county, members of the Dairy Cattle tour, sponsored by the Western Dairy Journal, were entertained at lunch on the lawn of the Borro home. Dairymen from throughout California, and from the Hawaiian Islands, were members of the tour; Nelson Crowe, publisher of the

PORTERVILLE ENTERPRISE

February 1, 1901

POPLAR

L. M. Conrad shipped a wagon load of honey to San Francisco last week.

There will be a dance at the Cooperative hall on the eve of February 15th prox.

John Dale, teacher at Hope, had to leave school on account of sickness and Miss Rowan is teaching in his place until he can return.

Rev. M. Coombs preached at Rockford yesterday, after Sunday school in the afternoon. They are planning a basket social in the same place in the near future.

DAUNT

Will Elster is chopping a nice lot of wood on the Middle Tule.

Ed. Cornell brought up a good bunch of cattle to turn on the range this week.

Uncle Joe Hoover of Globe has sold his place. People are beginning to look to this frostless belt for orange land.

QUINCY

Mat Flynn took a load of turkeys to Porterville, Saturday.

White River will celebrate on the 22nd of February by giving a great masque ball in the opera house.

Robert Hockett and Frank Gilliam went to Porterville last Thursday to bring out some stock to pasture.

Gladys Hockett was thrown

Western Dairy Journal, in introducing Mr. Borro to tour members, classed the Sequoia ranch as one of the most beautiful and best managed ranches in the state.

from a buggy the other evening and received painful injuries.

I. Mulholland, editor of the Inyo Independent of Independence, Cal., arrived with a band of horses to pasture for a few months. Mrs. Mulholland accompanied her husband on the trip.

The oil boom seems to have struck this country with considerable force and if all the holes are bored that are going to be started within thirty days, the country will soon look like a porous plaster.

KERNVILLE

Dr. Van Voorhees says he has had six cases of pneumonia this winter so far.

W. W. Hanning has moved his family to town from the summer ranch.

Rev. Mr. Rich of Bakersfield exchanged pulpits with Rev. J. C. Livingston of this place last Sunday.

The following persons are on the sick list: M. Vega, Mrs. John Cross, Mrs. Y. F. Obergon, Shona Gonzales, Celzo Cisterna, Zara Cisterna, Miss Jessie Klosa, John Kelly and J. B. Medina.

LINDSAY

Oscar McIntyre was a Porterville visitor, Wednesday.

George McLeas made a business trip to Visalia, Monday.

S. Berry and family and daughter, Mrs. Charles Rankin, were Visalia visitors, Wednesday.

William Grace, our courteous postmaster, has been making some improvements in the office.

Eli Graham will soon have one of the most attractive places in town. It would be nice if everyone would take such an interest in their place.

PORTERVILLE

H. C. Tutt wants to retail liquor in conjunction with a lunch counter at Springville. The Springville correspondent of the Visalia Times says in regard to it: "The way tongues have lashed and rattled is terrible to hear. Every back gate now sags on its hinges and this week's washing is unwashed. Feminine forms still dart to and fro and the end is not yet."

George Gay of Visalia arrived here last Wednesday to plaster the new residences of H. C. and W. Talbot.

D. J. Cantly, brother of J. F. Cantly, proprietor of the Pioneer hotel, was in town the fore part of the week on business.

Bud Kincade is now running a blacksmith shop north of the Tuttle building.

Jack Redd is now conducting the Palm Garden in Visalia and would like to have his friends call on him.

Walnut growers should begin watching for mite infestations immediately. Several orchards have shown high populations already — much earlier than last year. The Farm Advisor's office urges growers to treat these infestations early and not to wait until the leaves show damage. DN-D8 still appears to be the best material which is commercially available.

THE OLD DAYS

From miscellaneous files of pioneer Porterville newspapers, provided through the courtesy of Howard J. Frame, Porterville.

JOHN COOK, formerly of Albuquerque, New Mexico, has replaced Brad Bayliss as general secretary of the Tulare county "Y." Mr. Bayliss is completing work at the YMCA college in Springfield, Massachusetts.

MRS. ANNA DUTSCHEMANN and MRS. MABLE STOVER are camp cooks at Tulequoia this year, assisted by LAWRENCE STOVER and RUTH STOVER, all of Terra Bella.

GUS OLSON, Yolo county rancher, has been named by Governor Earl Warren to the board of regents of the University of California. His special interest is in the college of agriculture at Davis.
